Comments for Q5: in greater detail:

## Summary of WA 2020 World Conference Evaluation Data

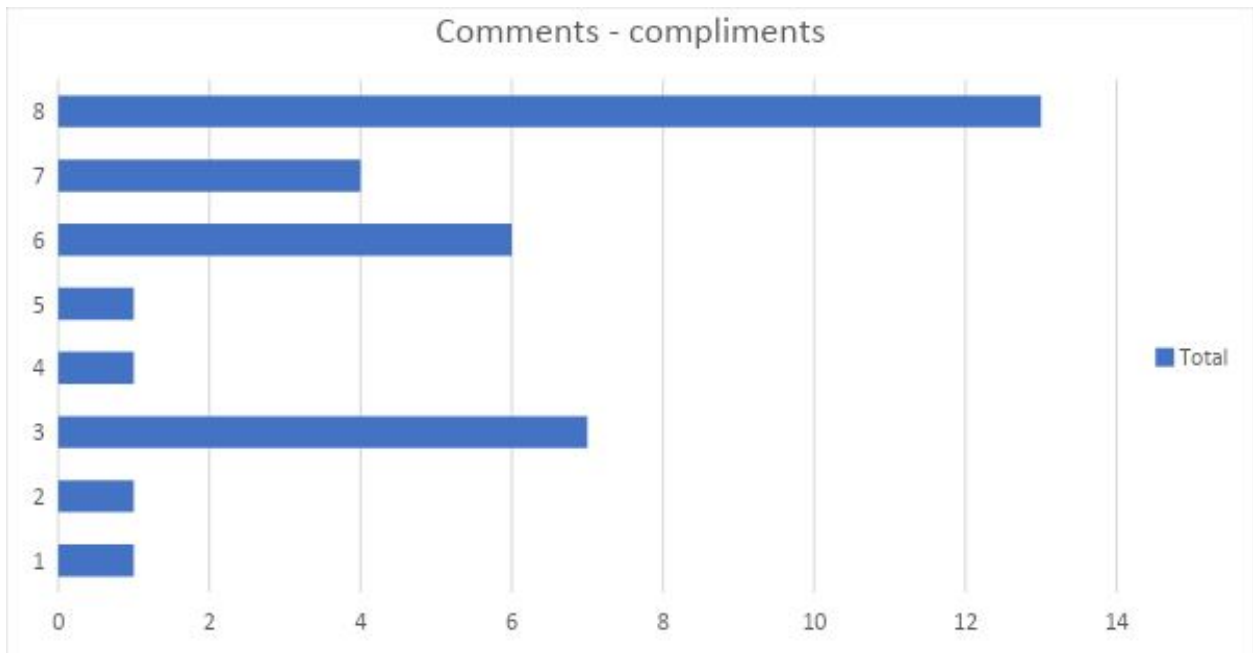

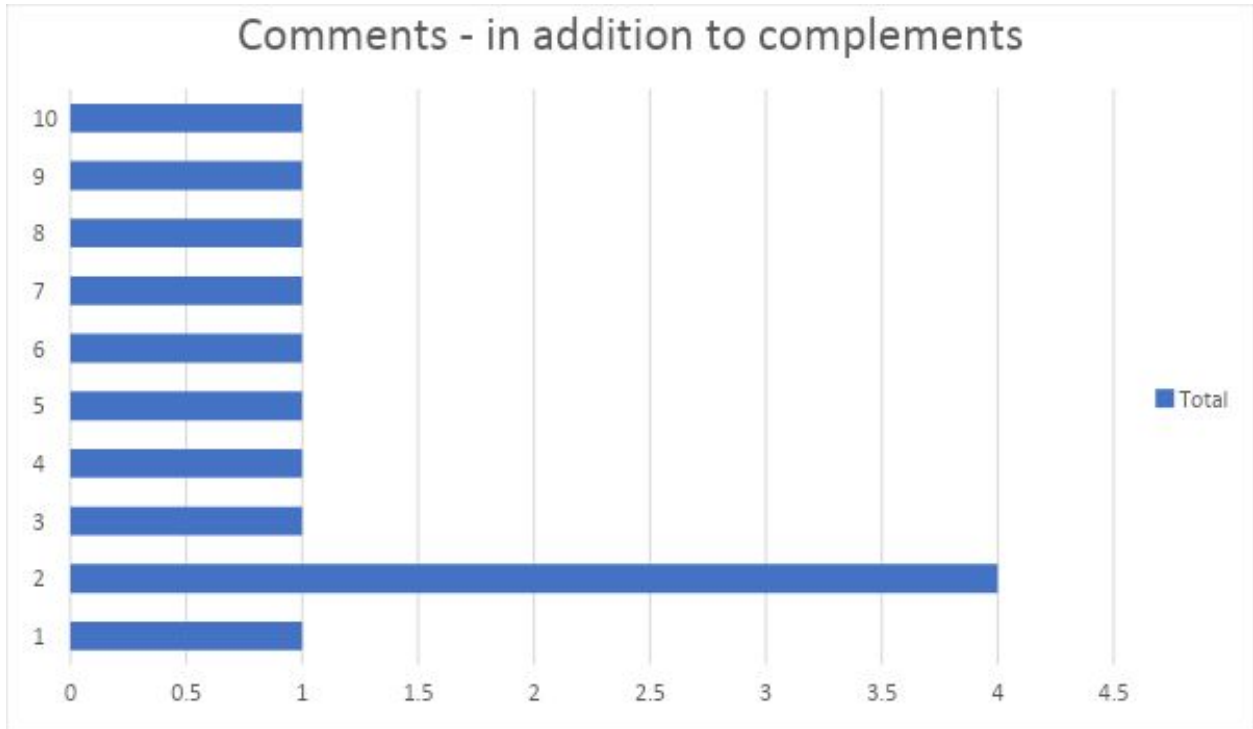

The label (blank) above and in later tables means that it's just a general category or subcategory. (e.g. "general comment about hope.")

Summary of WA 2020 World Conference Evaluation Data

Comments for Q6: 32 total responses; 39 comments

**Question 7: Please describe what you found most valuable and helpful about the conference design and content. (There were only comments for this question.) 96 responses.**

Note: we had a different volunteer for this one, so it has a different format.

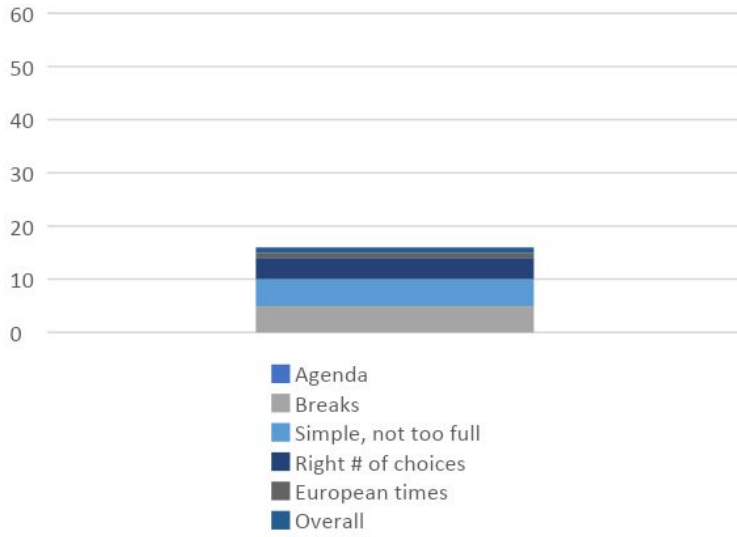

The heights of the columns on the following pages show relative frequency of mention of each major group.

Specific speaker topics mentioned were: Healing through feeling, recovery from perfectionism and work avoidance, Sara's talk, Laura's talk, tech and recovery, traditions, steps (had two mentions)
